The New TiZwine WineBiZ and Tipple News

Welcome to the new TiZwine WineBiZ and Tipple News - say that after a couple of glasses of wine! As you can see we have changed the appearance of the News. We just thought it was looking a little dated. If you do not allow your computer to download the images please give it a try. There is absolutely no risk and we believe that you will find the complete version much more interesting.

But this is not the only change. We have also introduced a New Zealand flag to highlight those stories that originate from these shores. Moreover, the News will now be published in the morning rather than early evening as previously. This will allow us to keep it even more up to date.

Finally, if you would to make any comments or suggestions or even send us a Press Release please use the Contact Us section at the bottom of this News. We would love to hear from you.
