Welcome to WineBiZ UK Edition

Welcome to the TiZwine WineBiZ Daily Newsletter. Each daily edition contains all the latest stories about the Wine Industry from around the world but with a European bias. The New Zealand version of the WineBiZ has been published for over 5 years and has proved very popular. Indeed, Michael Cooper has said,

"The WineBiZ newsletter helps to keep me abreast of what's going on in the world of wine, here and abroad. In the morning, it's a stimulating start to the day's work."

This service is entirely free and we would encourage you to not only tell your colleagues about it but to send us your press releases as well. It is an excellent way to make contact with everybody in your industry. Our contact details are at the bottom of this page so please help us make the UK WineBiZ as informative as possible.
